Heralding A New Era In Advanced Knee Replacement

Pinless

Computer Navigated

Total Knee Replacement

Accurate : Precise : Assured Results : Affordable
Most Advanced State Of The Art - Pinless Navigation

While you may not realize it, one of the most critical aspect of a joint replacement surgery is to ensure proper positioning of the implanted joint. A "less than perfect" aligned implanted joint can lead to early wear, loosening or early failure of the implanted joint replacement. Similar to the alignment of the wheels of your car, a poorly aligned joint replacement will cause problems with early wear of the replacement. Computer-navigated technique is one additional check to confirm proper placement of the joint replacement. **This is a big boon for those patients with KNEE DEFORMITIES and LEG DEFORMITIES undergoing knee replacement.**

Earlier versions of Computer assisted replacements used drilling extra few pins in thigh and leg bones to attach Arrays (Guides). Drilling extra holes in thigh and leg bones can sometimes lead to complications. **We are using latest state of the art PINLESS Computer navigations. We don't drill extra holes in thigh and leg bones. This avoids risks and complications associated with pin computer navigation.** Do ask your surgeon about navigation and its advantages.

Facilities:

Computer Navigated Total Knee Replacements
Complex And Revision Total Knee Replacements
Custom Made Knee Replacements
Massive Knee Replacements For Tumors

SKILL INDIA PROGRAMMES FOR SENIOR CITIZENS

L.R. GARG

India possesses large number of economically self sustained, healthy, learned senior citizens with untapped potential of professional skills and competence. Government of India could find avenues for such individuals through empanelment process and harness their potential through "Skill India Programmes". There are strong possibilities of Senior Citizens coming forward on the concepts of other than monetary compensation as well - proposal deserves due considerations for implementation to obviate Senior Citizens skills and competence going into hibernation.
